Career Objectives

I'm a dedicated software developer with a knack for creating user-friendly applications. Proficient in diverse programming languages, my strengths lie in the design, implementation, and maintenance of software solutions. Committed to staying informed about emerging technologies, I approach software development with a proactive and adaptable mindset.

Education

BE in Computer Science and Engineering

Visvesvaraya Technological University, Belagavi, Karnataka
2020

5.8(CGPA)

Biology Science (+2)

Kerala Higher Secondary Examination board

2014

79%

SSLC

Kerala Board of Public Examination

2012

Projects

An IoT Based Approach to Monitor Air pollution

The objective of this project is to develop the system which detect the different pollutants present in the air and monitoring level of the toxic content and to show the importance of IoT.

Components: Arduino platform and incorporated components like Sensors, Microcontroller(Arduino), communication module, cloud server, power supply, enclosure.

Cyber café management system

This mini project serves as a practical demonstration of a Cyber Café Management System, focused on maintaining daily user records in a cyber cafe setting.

•**Front End tools:** HTML, JavaScript, CSS

•**Back End tools:** MYSQL database, PHP

•Browser that supports HTML and JavaScript

•XAMPP Server

Hospital management system

This mini project serves as a practical demonstration of a Hospital Management System, focused on maintaining daily hospital records in a Hospital management setting.

•**Front End tools:** HTML, JavaScript, CSS

•**Back End tools:** MYSQL database, PHP

•Browser that supports HTML and JavaScript

•XAMPP Server

Skills

HTML, CSS, PHP, LARAVEL, JAVASCRIPT, REACT JS, C, C++

Pre-professional experience

SOFTWARE DEVELOPER

December 2023 -Ongoing

Try Logic Software Solution Pvt.Ltd ,Trivandrum
Under DDU-GKY Mission

Achievements

INTERNSHIPS:

Web Application Development- Nixbees technology

SEMINARS:

On Machine Learning and Artificial Intelligence

Attended comprehensive seminars on Machine Learning and Artificial Intelligence, gaining valuable insights into the latest advancements, applications, and the transformative impact of these technologies across various industries.

Activities

READING BOOKS
